

LOSBERGER DE BOER

## Losberger De Boer Storage Halls

# Increase Your Warehouse Space with Our Temporary and Permanent Facilities

Enhance your warehouse and storage space with our top-of-the-line, scalable buildings. They offer lower costs than buying or renting a permanent warehouse and a significantly shorter planning and build time.

### Flexible, Fast & Cost-Efficient

Building a new warehouse or storage facility requires extensive planning and construction time, along with a substantial investment. This also applies to purchasing or renting property, where you're dependent on the local property market. Is a suitable facility available in the desired region and at the right price? This is why our tailor-made, semi-permanent buildings are emerging as a fast and cost-efficient way to expand capacity.

### A Quick-to-Build Long-Term Solution

Our warehouses and logistics facilities provide long-term capacity solutions that can be implemented in the short term. Our structures are custom-made to meet your requirements and can be installed within weeks after your first consultation. Why waste time when there's a perfectly viable alternative to regular construction available? Thanks to the quality materials we use, our structures can be utilised for decades, and with proper maintenance, indefinitely.

### Our Certifications:

## Scalable and Relocatable

We pioneered the introduction of structures with a modular design, and our buildings still represent the highest industry standard in modular space solutions. The modular nature of our structures means that parts and elements are interchangeable, making them easy to assemble and disassemble. This allows for quick scaling up or down and easy relocation, providing you with permanent flexibility. Get future-proof fast by choosing structures that adapt to your changing requirements.

## A Sustainable Alternative

Our warehouses and industrial facilities offer a viable and sustainable option for companies looking to optimise their use of space. After a very short construction period requiring minimal heavy machinery, we deliver a building that is 99% reusable. By choosing a sustainable and recyclable space solution, your warehousing or storage facility actively helps you achieve your sustainability goals.

## Our modular building concepts are perfectly suited for various applications:

- Tailor-Made Solutions
- Scalable
- High Standards
- Turnkey Delivery
- Relocatable
- Flexible
- Cost-Efficient
- Durable

## Here's what our clients have to say:

Project: Industrial hall at a  
Car Dealer  
**9/10**

For us, flexibility is an important feature for economic success. The industrial halls can be used at short notice and can also be expanded depending on market developments, which has a positive effect on costs.”

Project: Storage Hall at a  
Large Cocoa Producer  
**10/10**

“Losberger De Boer works solution-oriented and for a fair price. Excellent service.”

Project: Storage Hall at a  
Roof Light Strip Producer  
**9/10**

“Great company with short lines of communication and proactive in providing information.”

*Committed to your success*
