We create space for every event imaginable

We are Losberger De Boer, one of the leading global suppliers of modular space solutions for events. We'll help you create the perfect event for your guests or clients.

We design, manufacture and build top class space solutions. We have a wide choice of highly adaptable event services and structures that can be used alone or linked to each other and existing buildings. Our structures distinguish themselves by their overall quality, stylish appearance and of course the quality of service from our highly experienced team of professionals.

Throughout our long history, we've earned an excellent reputation: supplying creative and innovative solutions for countless small and large, national and international events. We've supplied structures for the Farnborough International Air Show, RHS Chelsea Flower Show, Volvo Ocean Race, The Commonwealth Games, The Gatsby Club at Wimbledon and the Olympic Games, to name but a few.

Just tell us what you need

We take on everything: design, production, build and project management. All you need to bring to the table are your ideas. Not sure what you need? We'll help you figure it out. Tell us your wishes and we'll take it from there. We've got the expertise, experience and drive to provide you with the best possible event solution.

A centennial company

In 2019, Losberger De Boer became a centennial company. At 100 years of age, we are one of the industry leaders in our field. The key to our longevity and success has always been our absolute focus on our client's goals. We take great pride in providing you with the best possible space solution for your event and are dedicated to giving you the best possible customer experience. We are here to help you meet your challenges and our main drive is to make sure you achieve your goals. We are Losberger De Boer, committed to your success.

Expect everything from your suppliers

Whether it's a fashion show, product launch, sporting event, trade fair or anniversary: your visitors expect more. They expect more than they would a few years ago and so should you. Remember: you're only as good as your last event.

We at Losberger De Boer say: don't just pick a supplier that can provide you with a tent, choose a supplier that helps you get the job done. Choose a supplier that can offer you a tailor made solution, that can handle all the logistics surrounding your event and can take work off your hands. But most importantly: select the supplier that can help you create a unique and unforgettable experience for you and your guests

Experience

When it comes to choosing an event partner, experience is the key. An experienced partner knows the challenges of major events, can work with tight deadlines and budgets and can deal with unforeseen circumstances. An experienced partner always has a Plan B. We are 100 years old, so we really do have some experience.

Choose Losberger De Boer, if you want

- An experienced Account Manager that is focused on your needs;
- An experienced and solution-oriented Project Manager;
- A partner that will take work off your hands;
- An experienced Site Manager that ensures a quick, well organized assembly & turnkey handover;
- A highly skilled and experienced assembly and dismantling team;
- A space solution that suits your needs;
- The highest quality structures and reliability in the business;
- A guarantee that your event will go ahead, no matter what the weather decides to do;
- A partner that is committed to your success.

Let us help you to do the best job possible

Hosting or organizing an event takes a lot of time. We are happy to help you and take work off your hands by offering you a one-stop shop experience.

Additional services

We can support you with comprehensive additional services. Our experienced people can help you find the best partners to create the perfect atmosphere and comfort level for all visitors. Would you like us to take care of the interior decoration, to help you create a fully immersive brand experience? We can also supply you with heating, air-conditioning, sanitary units, lighting, security, permits, and so on.

We have a wide network of trusted partners, whose quality of work we can guarantee. We'll contact them and make sure that you'll swiftly receive an offer that meets your requirements and budget. While we ensure that everything is arranged to the last detail, you can focus on your role and the success of your event.

Peaks & Small Tents

multiflex

Cyclone

Chalet & Chalet Dome

Pagoda

Acropolis

Acropolis

Charm meets efficiency under a pagoda roof

Perfect for

- Receptions
- Corporate dinner parties
- Guest entrance

The Acropolis exudes style. Its unique contours, **hexagonal** shapes, pagoda style roof and transparent wall panels allow it to combine warmth and intimacy with an open feel. This structure is perfect for events that take place both indoor and outdoor.

Pavilion

The Acropolis can be used as a solitary pavilion for a cosy reception or party. Thanks to the modularity of all Losberger De Boer structures, it can also be joined to other structures to create a truly impressive entrance area for a large scale event. When several of them are combined, the honeycomb shape and complex roof design creates a distinctive space your guests are sure to remember.

A 97m² surface area

The Acropolis is 12m across and has a surface area of 97m². It can be left open to create a pleasant indoor and outdoor space. Used without walls, it's ideal for drink receptions and garden parties.

Size

97m²

- Wall elements of glass (vertical)
- Ventilation panels
- Various door types

Chalet & Chalet Dome

Characteristic luxury design for hospitality

Perfect for

- Corporate hospitality
- Sporting events
- Private parties

With its pagoda roof, the Chalet is a **versatile** and elegant structure, which can be used on its own or linked to other Chalets and structures, creating a stunning backdrop for your event.

An appealing entrance

At large party complexes where quality, ambience and luxury are a pre-requisite, Chalets offer a stunning entrance, with the peaked roof serving as a particularly appealing added bonus.

Cosy, with a comfortable climate

Losberger De Boer's unique peak ventilation system ensures the natural removal of air which ensures a comfortable interior climate. The roof covers exclude light, a feature that contributes to a cosy, intimate interior space with optimum climate control.

Lots of options

The Chalet is versatile and offers many different options. You can choose from glass walls with a decorative column motif, self-closing glass doors with push bars and door springs, emergency doors or PVC side curtains with arched windows.

Size

- 5x5m
- 6x6m
- 8x8m

Side height

- Wall elements of glass (vertical and horizontal)
- Ventilation panels
- Various door types

Pagoda

Perfectly flexible

Perfect for

- Catering
- Trade shows
- Parties
- Hospitality

With its characteristic appearance and high-end finish quality, our Pagoda is an attractive and **highly noticeable structure** at any location. Because it can be used separately or in an ensemble, it can serve a great number of purposes at your event or festival.

Fast assembly

The Pagoda combines a well thought-out assembly technique with our patented *dual keder technology*, which means it can be assembled easily and swiftly. This makes the Pagoda ideal for catering, trade shows and parties as well.

Hospitality

Every side of the Pagoda can be either open or closed. You can also choose a completely transparent version of this structure, our *Glass Pagoda*. This accommodation is ideal for hospitality purposes, as the large glass surface area gives the Pagoda a classy look.

Size

4.30x4.30m
5.30x5.30m

Side height

2.40m
2.50m

Options

- Curtains with window variants (transparent and translucent)
- Roof covers (opaque)
- Wall elements of hard PVC (vertical)
- Wall elements of glass (vertical)
- Various door types

Cyclone

A breath of fresh air

Perfect for

- Live communications
- Catering
- Hospitality

Straightforwardness meets elegance. Our Cyclone is a modern-to-the-point-offuturistic transparent structure with a **striking appearance** that is yet highly multifunctional.

The Cyclone is sure to stand out

Due to the architecturally sophisticated shape of the building, this mobile space solution stands out at any event. Its clear line, side heights of 2.80m and unique roof design makes the Cyclone a breath of fresh air in the event structures industry. It offers a new appearance from all four points of the compass, whilst inside, a feeling of space in a new dimension is created.

A standout structure in a tent landscape

The roof is the stand-out design feature of this transparent structure. It's flat, but tapers downwards like a cyclone with a slight increasing lateral curvature. A lovely design feature, that also functions as drainage. In the event of rain, water will be released into the ground via this revolutionary feature.

As with all Losberger De Boer structures, the Cyclone can be combined with other accommodations, to form a complete tent landscape. We're always ready to help you create a spectacular combination of structures to add a unique touch to your event.

Size

5x5m

Side height

2.70m

Options

- Curtains (transparent and translucent)
- Roof covers (opaque)
- Wall elements of glass (vertical)
- Various door types

Pyramid

One of the wonders of the tenting world

Perfect for

- Terraces/event hospitality
- Outdoor exhibits
- Parties/weddings

Entice your guests with the **elegant and festive** Pyramid. Its pagoda roof adds a positive vibe to your event, ensuring that it will go off in style.

Open or close

Whether your event is private or open in nature, the Pyramid provides a solution for all purposes. The option of opening or closing the curtains means that this structure is prepared for changing weather conditions. Closed curtains create an intimate indoor setting, while the decorative PVC arched windows add to the coziness. One or more sides of the tent can be drawn open for an open, relaxed atmosphere.

Square floor plan

The Pyramid has a square floor plan with a surface area ranging between 25m² and 65m². The structure does not have any obstructive supports, so you can make optimal use of the space. If desired, we can install a classy, non-slip wooden floor system.

Optimal use of space

The Pyramid can be used for all kinds of purposes: from fairs and wedding receptions to garden parties and culinary events. The Pyramid is a free-standing structure without tension ropes or a central post, allowing optimal use to be made of the space. It can also be connected to other Losberger De Boer structures to create a festive village, completely dedicated to your event.

Size

multiflex P9

Economical in every way

Perfect for

- Multifunctional use
- Exhibitions
- Hospitality

When efficiency is key, look no further than the multiflex P9. Why? Because the multiflex is economical in every way and can provide you with a **solid space solution for any event.**

Economical in every way

The basic structure can be modified and expanded, as well as be combined with the entire multiflex and uniflex range. The combination and expansion options are boundless. As a result, the multiflex series can provide you with highly efficient solutions for any event, from VIP events and parties to exhibitions and promotions, as well as tailor-made storage facilities.

Workhorse

The multiflex is our workhorse, as this structure can serve so many purposes. It is fitted with canvas, but can also be equipped with windows and curtains. All multiflex space solutions can be fitted with either canvas or glass and PVC panels. With all these different shapes and the possibility to combine them all, the options are limitless.

Combine several multiflexes

The multiflex, which is available in widths of up to 15m, really is the chameleon of temporary structures. Combine two multiflexes with glass panels and a transparent roof, and you have a great hospitality suite with daylight conditions inside. Combine several and equip them with canvas and the space you create is perfect for catering at outdoor events, and so on. The multiflex really does live up to its name.

The multiflex offers three different **roof options:** A-frame, Arcum (curved) and Dome area (peak).

Alu Hall

Basic nature, unprecedented versatility

- Perfect for**
- Multifunctional use
 - Hospitality, corporate parties
 - Sporting events
 - Exhibitions, product launches, official openings

The Alu Hall is so versatile, it works anywhere. Anywhere? Anywhere. Our Alu Hall offers you the straightforward quality of an **A Frame structure** with the flexibility of being able to create an aesthetically appealing exterior using vertical glass and white PVC panels for more exclusive events.

A clearspan structure
The clearspan aluminium frame structure is available in 8, 10, 12, 20 and 25m widths, enabling you to make efficient use of space at any venue. In addition to this, several structures can be linked together to create a unified look and feel to your venue.

A classy entry-level structure
White PVC panels are finished with a high gloss laminate and the location of glazed panels, standard white panels and doors can be tailored to suit your every need. The internal finish can be tailored to your specific requirements as well, either creating an impressive setting for your event or a simple and functional area for kitchens, storage or other back of house uses. This versatility makes the Alu Hall an ideal space solution for customers with a lower budget.

- Brought back façade

Alu Vista

Timeless, modern and versatile

Perfect for

- Exhibitions
- Corporate events
- Product launches
- Parties

Combine a **clearspan aluminium frame** structure available in 10, 12, 15, 20 and 25m widths with an appealing façade using horizontal glass and white PVC panels, and what do you get? An extremely versatile structure that helps you make efficient use of space whilst offering you a stylish appearance suitable to the most exclusive events.

PVC panels with an insulating core

The white PVC panels are finished with a high gloss laminate and incorporate an insulating core – this reduces your reliance on heating or air conditioning and helps to eliminate interference from external noise.

An impressive setting

The location of glazed panels, white composite panels and doors can be tailored to suit your requirements and the quality of internal finish creates an impressive setting for your event, without needing lining or additional dressing. Various structures can be linked together to create an unified look and feel to your venue.

- Insulated wall elements of hard PVC (horizontal)
- Insulated wall elements of glass (horizontal)
- Ventilation panels
- Various door types
- Brought back façade

uniflex

Uniquely flexible

Perfect for

- Large scale events & hospitality
- High-end product presentations
- Trade fairs

The uniflex is our entry level product for large tent systems. It is available in a wide variety of designs and sizes, ranging from 5-21m in width.

Highly modular

The modularity of this system makes it possible for you to turn one into two, and two into more, as only a few additional components are needed in order to produce the size and esthetics that you require.

We continuously design new elements and options for this system, all of which are, of course, compatible and interchangeable with the current parts.

The possibilities are endless

Creativity is limitless with the uniflex system. A host of accessories, such as glass or hard-PVC system elements (at side height of 3.40 and 4m), system cassette flooring, aluminum doors, ramps, decoration and more, are available to transform the basic uniflex system into stylish, individual space solutions for any application.

- Arcum roof
- Brought back façade

Jumbo Hall

Clearspan space up to 50m

Perfect for

- Indoor sporting events
- Large exhibitions
- Trade fairs

Our gigantic Jumbo Hall offers endless space, allowing you to accommodate any large-scale event from huge exhibitions to major sports events.

Patented roof tensioning system

So how big is it? The standard wall height is 4m with a clearspan length of 30, 40 or 50m and the apex height varies from 8 to 12m. Despite its size, the roof fabric is taut under all conditions, thanks to our unique and patented roof tensioning system which prevents flapping and extraneous noise.

Comfortable climate

Another special Losberger De Boer development that is designed for this massive structure is the Cuckoo, a raised ventilation grid that provides natural, enhanced extraction of air. This means that even the biggest version of the Jumbo Hall has draught-free air circulation and a comfortable climate.

- Brought back façade

Anova

Curvaceously classy

Are you looking for a truly stunning location? Look no further than the Anova Vista. When the Losberger De Boer design team worked its magic and produced the Anova, they set **a new standard in event structures.**

Unparalleled versatility

Apart from being curvaceously classy, the Anova Vista offers you a wide range of possibilities.

You can

- Choose between high gloss laminate panels, glazing and/or doors;
- Extend the central core by adding 5m modules on either side, so that you can create covered terrace areas, add functional space or include service areas;
- Link the Anova to other structures;
- Incorporate entrance foyers, bar areas, toilets and catering under one swooping roofline.

Brand your event

The Anova has some other features that are worth mentioning:

- Its wide, horizontal windows allow light to flood into your structure, whilst the fact that they are tinted reduces issues of thermal gain and solar glare on a sunny day;
- The use of 50mm insulated panels reduces your reliance on climate control and helps with sound absorption and thermal performance;
- The gable sail can be located internally, so you can divide the area or provide a terrace area that covers the entire width of the structure;
- The standard frame incorporates a system that enables brand identities or other banners to be quickly attached, allowing your key messages to be wrapped around the structure.

Size

- 10m
- 15m
- 20m

Side height

- 3.50m

Options

- System floor
- Cassette floor
- Non-anchoring floor/plate floor

- Insulated wall elements of glass (horizontal)
- Ventilation panels
- Various door types
- Brought back façade
- 5m wings on both length sides

Delta

Space for big ideas

- Perfect for**
- Product launch
 - Product showroom
 - Exhibitions
 - Hospitality

The Delta offers a visually stunning solution that delivers an exceptional standard of **multifunctional space**.

Space-frame
 If you've got big ideas, than the Delta is the perfect structure for you. The geometric lines of the space-frame structure create a distinctive roof-line whilst also providing clear internal heights of up to 6m and gable widths of up to 65m, with column free spans of up to 35m, where required.

Generous internal heights and lots of branding space
 The Delta can be easily branded to reflect a corporate image, whilst its classy internal finish will further enhance the brand experience. Vertical glass panels can be incorporated to create fully glazed façades, adding light and creating a feeling of space. The generous internal heights allow for the use of dramatic lighting or large scale signage to add impact to your event.

Delta Vista

Space with a view

Perfect for

- Product launch
- Exhibitions
- Hospitality
- Making a statement

Loads of functional space, a striking appearance and a **transparent exterior**; if you're looking to make a statement, look no further than the Delta Vista.

Room for lighting effects and large scale signage

It's fully glazed façades add light to your structure, whilst creating a feeling of airiness and space. The Delta Vista's generous internal heights not only provide you with all the space you need, but also allow you to use lighting effects or add large scale signage.

Other noticeable features, that make the Delta Vista perfect for large scale events:

- Insulated walls (which also help with sound absorption)
- Distinctive roof-line
- Clear internal heights of 6m
- Gable widths of up to 80m
- Column free spans of up to 35m (where required)
- Robust integral floor system

Combining different heights

Thanks to the modularity of all Losberger De Boer structures, the Delta Vista can be combined with other structures to create a contemporary and eye-catching hospitality facility. You can even specify differing heights of Delta to be linked together to add even more impact to your event space.

maxiflex

What's in a name?

Perfect for

- Large scale events
- Sporting events
- High-end product launches

The maxiflex is **the most flexible large tent** in the market today. It is available from 10-50m in width and offers countless configuration options, including the double decker Emporium variant. So, in this case, the name really does say it all.

From small catering tent to large hospitality pavilion

In need of a 10x10 catering space for your event? The smallest configuration with textile covers will do the job just fine. Are you looking for a large hall for a trade fair or exhibition? We'll deliver a maxiflex in exactly the right size, with PVC wall panels and perhaps a canopy entrance above the doors, to provide you with all the space you could possibly want. Do you need a large space for hospitality purposes? With transparent panels in the walls and the roof, you'll have a stunning pavilion in no time.

Specials

Galaxy & Pink Galaxy

Panorama

Losberger De Boer delivers top of class, tailor made space solutions for events. Thanks to the fact that all of the structures in our product catalogue are modular and are designed by our own engineers, there is almost no limit to what we can create. That's why we often say: tell us what you need and we'll offer you the best possible space solution for your event!

Kubo

Rondo & Domicile

Kubo

Cubical brand builder

Perfect for

- Corporate events
- Outdoor trade fairs
- Showroom

Premium quality and appearance, more than enough space and endless possibilities to showcase your corporate identity: the Kubo is a purebred **brand builder** specifically designed for large scale corporate events and trade fairs.

Top of class image value

With its rectangular shape, ceiling height and large outside design surfaces the Kubo ensures highest visibility and top of class image value. This structure offers generous surface areas for branding and advertising purposes. The large horizontal glass wall elements give the Kubo a high-end, classy look and transparent feel. Insertable façade banners can replace wall panels and allow you to further customize the Kubo with your corporate design.

Thermo roof and walls

The Kubo comes with a thermo roof cover. This double-layered roof covering has air cushions and is regulated by pressure control. This, and its use of membrane technology, deliver higher heat insulation properties. The horizontal, floor-to-ceiling windows not only look great, but they also add another insulating, sustainable element to the Kubo. This structure also features additional thermo wall cassettes. Do you want to go green? Go Kubo.

Panorama

The centre of attention

Perfect for

- Conferences
- Exhibitions
- Promotional tours
- Parties
- Product launches

Our stunning high-tech Panorama combines **state-of-the art technology** with innovative design to create the perfect venue for special projects.

A panoramic view

In its smallest configuration (as a circular building of 20m in diameter), this distinctive structure provides 314m² of space- with a unique panoramic view! This space can then be extended by adding additional 5m wide bays to the center, creating a diamond shaped facility with a potential total floor space of 714m², making it suitable for hosting as many as 700 people at any one time. Need even more space? The Panorama can also be linked to other structures.

Prestige and ambience

The strikingly beautiful structure features fully glazed façades and a silver grey opaque PVC roof. This not only creates a light and airy feel, it also provides you with an event space that has the prestige and general ambience of a permanent building, but combined with the adaptability that comes from using a temporary facility.

Contemporary design

This highly distinctive structure has horizontal panoramic panels, offering both style and functionality by combining eye-catching, contemporary design with optimum use of space. Users enjoy outstanding comfort and unparalleled external views.

Galaxy & Pink Galaxy

A stage fit for stars

Perfect for

- Concerts
- Festivals
- Award shows
- Charity events

For any event where you're putting on a show, our Galaxy line is ideal. If it is a **huge space** you require for a pop concert, a music festival, an awards ceremony or a large charity event, then either the Galaxy or the Pink Galaxy is the solution. With a width of 60m and lengths of 107m and 152m respectively, these structures can accommodate between 10,000 and 15,000 guests.

Great acoustics

Both these magnificent structures can be erected quickly with the minimum of fuss. The king poles supporting the roof provide a height of over 20m, which creates an area with subliminal lighting possibilities and fantastic acoustics. Both tents have a striking appearance; guests will instantly know where the action will take place. The inside is calm and can be completely dark, so lighting effects can do their magic.

Short installation time

We can include all the things you'll need to make a large entertainment event work, including stages, seating, lighting and backstage facilities. Thanks to our advanced systems and specialized construction team, we can erect the Galaxy and Pink Galaxy in less than a week.

Rondo & Domicile

Well-rounded structures

Perfect for

- Festivals
- Weddings
- Parties

Losberger De Boer offers high-end event structures in all shapes and sizes, which is illustrated nicely by our Rondo & Domicile. Both are lovely multi-sided accommodations with a round shape.

The Rondo and its 'brother' Domicile are the result of our passion for complete and tailor-made space solutions. They are a great addition to our line of arched-roof structures for outdoor events, such as festivals, weddings and parties. Thanks to its round shape, they are perfect for when someone or something needs to be the center of attention, for instance during a performance, presentation or symposium.

The Rondo is available with 10, 12 and 16. Are you looking for something a bit more... festive? **The Domicile** has the same characteristics as the Rondo, but has a striking peak top roof.

Like all Losberger De Boer systems, the Rondo and Domicile are modular. They can be split in half and combined with other structures, to create a custom space solution. They can be equipped with either pvc wall panels or transparent glass panels.

Rondo versions are available for the following structures

- 1) uniflex P3N | 16,3/340 und 16,3/400 = available for span widths 16m and side heights of 3.40m and 4m (10 sided)
- 2) maxiflex P1 | 20,5/340 and 400 (12 sided) and 30,5/340 and 400 (16 sided)

Domicile versions are available for the following structures (all 10 sided)

- 1) uniflex P3N | 16,3/340 und 16,3/400 = available for span widths 16m and side heights of 3.40m and 4m

Walkway

Let us show you the way

Perfect for

- Connecting event structure to permanent building
- Connecting multiple structures
- Demonstration stands

Need to connect two buildings? Let us show you the way. Losberger De Boer's Walkway is the perfect structure to **connect** a temporary event structure to an existing building, allowing for a seamless transition.

A two way street

The Walkway is 3m wide, which is more than enough for comfortable pedestrian traffic in both directions. It can be any length you need. If desired, it can be fitted with PVC side curtains, but it can also be supplied as a covering structure only.

Other functions: entrance and stand

Apart from connecting buildings and guiding people from one structure to another, the Walkway can be used to create a grand entrance to an event. Thanks to the modularity of all our structures, the Walkway can easily be adapted to provide a perfect covered space for various types of stands.

Size

- 3x1m
- 3x2m
- 3x4m

Side height

2.40m

Options

- Cassette floor
- Curtains with window variants (opaque)
- Roof covers (transparent, translucent and opaque)
- Curved elements

Nexus

Well connected

Perfect for

- Connecting structures or buildings
- A grand entrance
- Retail

Nexus is **the evolution of our walkway system**. It gives you even more options to connect buildings in an aesthetically pleasing, classy way, with options like transparent, high gloss laminate or glazed panels. The quality of the internal finish creates an high-end setting for your event, without needing lining or additional dressing.

Maximize your space

Like the Walkway, the Nexus is highly flexible and can be any length you need. Its three metres wide, which is wide enough for pedestrian traffic in two directions. When you choose glass panels, you can use stickering to further enhance the total brand experience. By using corner segments, Nexus can be erected in any configuration, making it perfect for locations where you need to take maximum advantage of the space available.

Retail and merchandising stands

Apart from connecting two or more structures, the Nexus can be used as an inviting entrance or for retailing and merchandising points.

Size

3x2.50m

Side height

2.70m

Options

- System floor
- Non-anchoring floor/plate floor
- Curtains with window variants (opaque)
- Insulated wall elements of hard PVC (horizontal)
- Insulated wall elements of glass (horizontal)
- Various door types

Double Deckers

Delta Emperor

Palas

Our Double Deckers allow you to go big, even if there is a limited amount of surface area available. Apart from having several double decker structures at hand, we also have the opportunity to add a mezzanine floor to some of our halls or combine several structures to create a truly unique, multi-story event solution! Contact us and we'll help you to maximize the use of the space available!

maxiflex Emporium

Premier with Panorama

Palas

A structure befitting a King

Perfect for

- Large scale events & hospitality
- High-end product presentations
- Trade fairs

Linear architecture, cubic forms and generous glazing. When you choose the new high-capacity Palas event and trade fair hall, you choose elegance and atmosphere in a functional design. The Palas oozes class and is a structure befitting a King.

Great branding possibilities

Visually appealing and spacious, the Palas provides incredible design freedom, both inside and out. The various façade structuring options allow for unique architectural features and branding possibilities. The Palas is a highly noticeable structure that catches the eye of the public – and so will your brand.

Add an extra floor level

Do you need a lot of event space? Look no further than this majestic structure. It can be equipped with mezzanine for extra floor space. Our Palas Emporium two-story variant creates an optimal spatial experience. Both floors can hold stages for presentations and still offer a lot of space.

Energy-preserving technology

Like the Kubo, the Palas is fitted with energy-preserving technology, such as thermo roof covers made with membrane technology and pressure regulator controlled air cushions. The horizontal window elements go all the way to the floor and have a strong insulating effect.

- Brought back façade
- Mezzanine floor
- External and internal stairs

President

A flexible double decker

Perfect for

- Sporting events
- Large scale parties
- Hospitality at festivals

Your guests deserve a presidential accommodation! And that's why you should choose the President for your event. This double deck platform provides an **unobstructed view** of the event and makes a lasting impression.

Maximize the available space

Where the surface area is limited, this structure is the ideal choice as it allows us to build upwards, saving you valuable space. The first floor provides visitors a great view of your event, which makes it ideal for large scale sporting events. Visitors can access the approximately 4-metre-high upper level by means of an attractive, wide staircase. These two-level accommodations are characterised by their white, elegant curved railings.

Classy

Functionality and luxury go hand in hand with the president. This structure provides you with everything your guests deserve: class, exclusivity and space.

maxiflex Emporium

What's in a name?

Perfect for

- Large scale events
- Sporting events
- High-end product launches

Double decker: the Emporium

The maxiflex is also available as a double decker, the maxiflex Emporium. It's big, stylish, and highly noticeable. But most importantly, it offers you endless space and infinite possibilities in terms of layout. Please check out this stand-out, multi-story structure in our **double decker** section.

Everything is interchangeable

This structure is the pinnacle in the field of large modular space solutions. Every element within the maxiflex system can be combined or interchanged. The system also provides you with extra options, such as lining decorations for the roof, walkway connections to other structures or a main building, double-wing doors, canopies, curtains, and so on. Both structures can be equipped with an A-frame or Arcum (curved) roof.

- Balconies
- Mezzanine floor
- External and internal stairs

Premier

The foundation for the perfect event

Perfect for

- Sporting events
- Large scale hospitality

Our Premier is the foundation for the perfect guest experience – literally. Although it’s a great double decker structure on its own accord, it has one stand-out feature that makes it **a true space winner**.

Choose the best possible structure to go on top

Its modular platform can be built as a stand-alone viewing platform, but can also house several other Losberger De Boer structures. Combine the Premier with a Pyramid, Acropolis or Chalet top to create an awe-inspiring and highly noticeable double decker structure. Or what about a fully transparent (glass) Alu Vista on top? Talk about a wow-factor...

Large terraces or balcony

There are countless possibilities to add onto the Premier. Add a smaller structure on top, and you’ll have enough covered space as well as a large terrace. The Premier also comes with an optional added 2.50 metre-wide balcony, for the long sides of the structure. Its versatility and the fact that it offers guests a splendid and unobstructed view of the match site (tennis court, golf course, racecourse, hockey field, circuit, and so on), makes the Premier ideal for projects that demand a large spectator capacity.

Emperor

A majestic double decker

Perfect for

- VIP/Hospitality
- Product launches
- Conferences
- World class events

The Emperor is a uniquely shaped **double deck structure** that incorporates glass, aluminium and wooden elements, setting a new and exceptional standard for temporary venues.

Double height voids

The highly versatile Emperor can incorporate balconies (with over-sailing canopies that offer shade and a distinctive profile) as well as internal mezzanine levels that can be used to create double height voids through the structure, adding to the overall feeling of spaciousness.

For world class events

Want to make a dramatic brand statement or host esteemed guests at a world class event? The Emperor has proven its worth at high-profile events as the Farnborough International Airshow, the Volvo Ocean Race, golf's Ryder Cup and the football World Cup Finals. It has also acted as a Media Centre for various G8 Conferences.

Delta Emperor

The best of both worlds

Perfect for

- VIP/Hospitality
- Product launches
- Conferences
- First class events

The Delta Emperor combines all the benefits from the classy Emperor and spaci-ously generous Delta in a highly versatile space solution that leaves nothing to be desired.

The cherry on top

With an Emperor platform as solid foundation and the distinctive Delta roof sha-pe on top, this highly-customizable structure enables optimal use of the available space while meeting the highest design and safety standards.

Expandable

Making use of 5x5m modules, the Delta Emperor is highly flexible, easily ex-pandable and allows you to add a mezzanine floor, balconies, internal and exter-nal stairs and several options for cladding.

Bringing together parts of wood, glass and metal, our Delta Emperor meets all the design needs of modern and classical inspired events and occasions.
