

The Levo Collection

The ultimate event tent solution for premium events that impress.

LOSBERGER DE BOER

The Levo Collection

Elevate your business

For decades, Losberger De Boer has been a pioneer in the tent industry, delivering innovative and versatile tent systems that meet a wide range of needs. The latest addition to our portfolio is the Levo — a remarkable system designed to take your event structures to a whole new level of sophistication.

Whether it's a wedding, gala, or any exclusive occasion, the Levo ensures an unforgettable experience.

The Levo offers more than just a striking roof shape. The option of a fully transparent roof makes the Levo an ideal choice for daytime events or scenic outdoor locations. Let guests immerse themselves in nature's beauty while enjoying the comfort of a high-end event building.

The Levo Base Structure

Timeless elegance meets technical excellence.

Available as add-on or stand-alone venue

Discover the Levo as an add-on to complement your existing Losberger De Boer structures, or as a stand-alone, complete tent system. This versatility makes the Levo a compelling choice for tent rental companies seeking to enhance their inventory's value. Wedding planners will find the Levo to be the pinnacle of elegance, offering the perfect venue for high-end weddings.

Experience unobstructed space

The Levo is one of only a few structures of its kind in the market today, that doesn't make use of interior legs. This means that the entire space remains unobstructed, allowing for maximum utilization and limitless event possibilities. With the Levo, your layout is not restricted and you can offer your clients a seamless flow and uninterrupted views, which further adds to the open, high-end look and feel of this structure.

Thanks to its fully transparent roof and gable options, the Levo is particularly well-suited for events held in natural or picturesque surroundings. Whether set in a vineyard, garden, or scenic outdoor venue, it allows guests to enjoy stunning views and daylight while remaining sheltered in comfort and style. With the landscape as a natural backdrop, the Levo adds atmosphere, connection, and a true wow factor to every occasion.

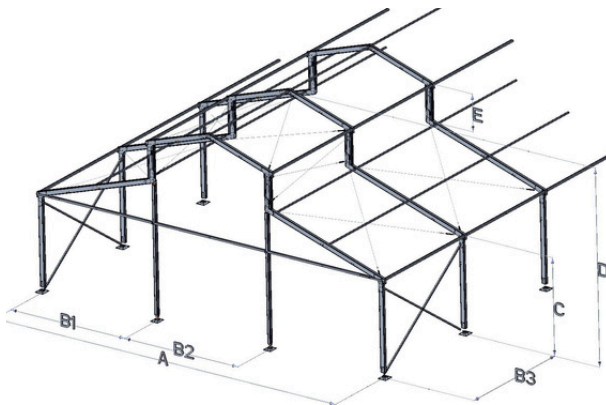

Who benefits from the Levo

- **Tent rental companies** looking to get more value from their current inventory — Levo makes it possible.
- **Event organizers** in need of premium event space for product launches, VIP areas & more.
- **Wedding planners** offering stylish, unforgettable venues for the most special occasions.

Levo Arcum

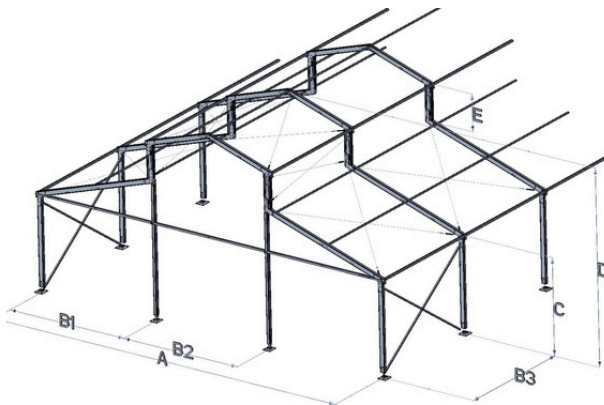

Curved refinement for even more elegance.

The **Levo Arcum** expands on the celebrated Levo product line with a graceful, curved roofline that adds a distinctive touch to its already renowned elegance and versatility. Designed for high-end weddings, sophisticated festivals, and exclusive events, the Arcum seamlessly blends style with the reliability that event professionals value.

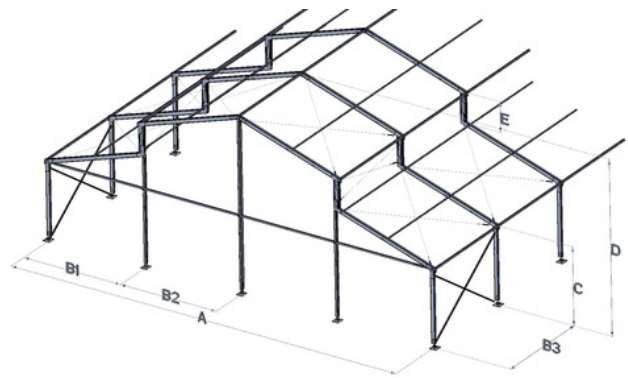

Why Choose the Levo Arcum?

- **Distinctive design:** Elegant curved roofline delivers a high-end architectural aesthetic.
- **Seamless integration:** Fully compatible with existing Losberger De Boer systems.
- **Unobstructed interior:** No interior legs for maximum usable space.
- **Custom finish options:** Available in black frame and with transparent or PVC panels.
- **Long-term value:** Built to meet the highest safety and durability standards, including wind load certification (DIN EN 13782).

Levo Lite

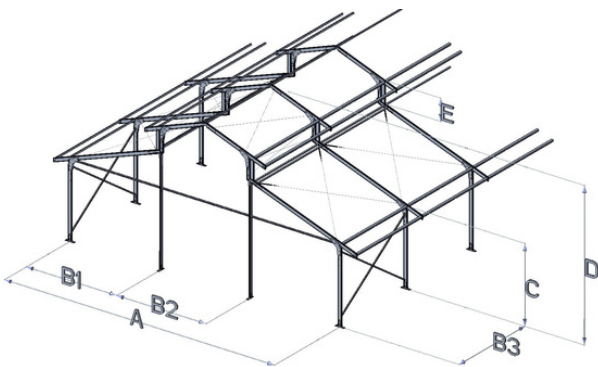

Lighter frame. Same iconic presence.

The **Levo Lite** is the latest evolution of our renowned Levo structure, now built on the **Multiflex P7** frame system. Engineered for effortless handling without compromising on durability, the Levo Lite offers a perfect balance of strength and style — while maintaining the sleek, modern aesthetic of the original Levo.

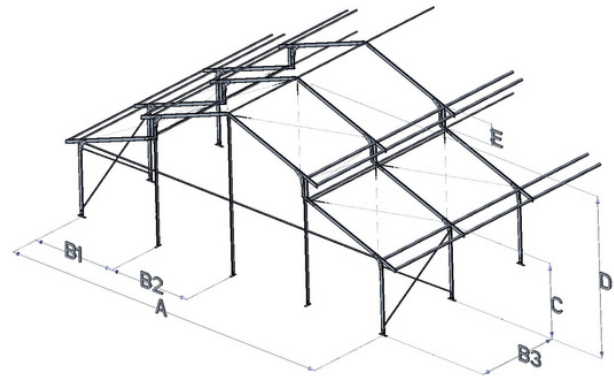

Why Choose the Levo Lite?

- **Lightweight design:** Easier transport and faster setup.
- **Modular flexibility:** Scalable and adaptable to any event size.
- **Uncompromised design:** No interior legs, seamless flow, and open layout.
- **Perfect for dynamic events:** A cost-effective solution without sacrificing quality.
- **Custom finish options:** available with black or white powder coating.

Levo Lite Apse (Add-On)

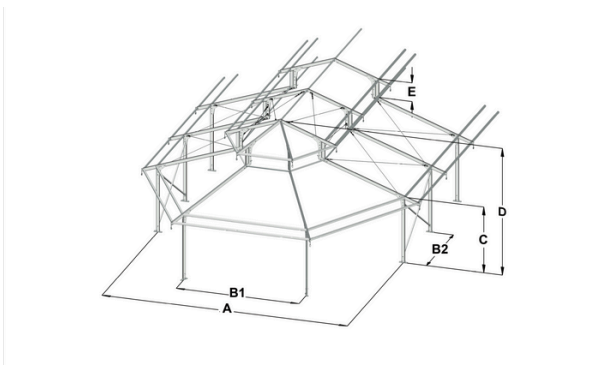

Your design extension for flexible, high-impact layouts.

Introducing the **Levo Apse** — a modular architectural extension that brings new spatial possibilities to your **Levo Lite**. With its signature **two-level cupola design**, the Apse adds a dramatic curved end piece that enhances both the look and the function of your event structure. Whether you're creating a stylish entrance, a wrap-around seating area, or an inviting lounge, the Apse allows you to do more with your Levo — without adding complexity.

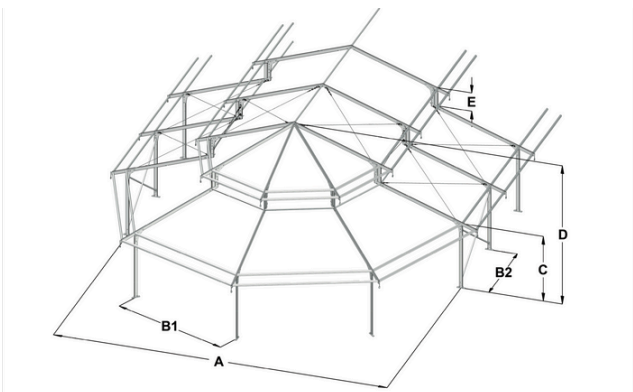

Why Choose the Levo Apse?

- **Striking curved design:** Add architectural flair that makes a lasting impression.
- **Multi-functional space:** Shape alcoves, lounges, or curved transitions within a single structure.
- **Plug-and-play integration:** Connects seamlessly to the Levo system — no special components required.
- **Flexible configurations:** Use open or closed, mirrored or single-sided, depending on your event concept.
- **Enhanced flow:** Displace guest movement, soften layout edges, and create natural focal points.
- **Modular efficiency:** Achieve more without separate tents or extra structures.
